Sound + Vision

"Outstanding Sound Quality."
Home Theater

"Blows away TV sound."
NBC's Today Show

"Amazing...shockingly good."
Home Entertainment

"Audiophile-quality."
Stereophile

The new Z-Base sound bar systems from ZVOX: small size, small price, big sound.

Forget everything you know about surround sound. Now you don't need a roomful of speakers and wires to get great home theater sound. The new Z-Base V-Series home theater systems from ZVOX include multiple speakers, a powered subwoofer, amplifiers and PhaseCue™ surround sound – all in one small cabinet!

Hides away under your TV! The ZVOX system sits under your TV – no mounting brackets or special cabinets required. Simply place it on a piece of furniture, then place your flat-panel TV on top of it. Once installed, most people won't even notice it – until they hear it!

Award-winning ZVOX sound quality. We don't know of any company whose sound systems have gotten more rave reviews in the last five years. The critics – and our customers – love ZVOX systems. Voices are clear and understandable. Movie soundtracks come alive with 3D sound and powerful bass. Music is remarkably accurate and lifelike. You simply won't believe how much sound can come from such a compact system.

Works with your remote. The V-Series ZVOX systems are programmed so that they can learn the volume, mute and on/off commands from your TV or cable box remote control. So after you've set up the system, you can put the ZVOX remote in a drawer.

Super-clear voices. Our new Dialog Emphasis feature makes voices crystal clear – you can hear every word.

Sound volume leveling. Our new Output Leveling feature helps keep volume at the same level as you go from channel to channel, or when a commercial comes on.

Connect your iPod® too. The V-Series ZVOX systems have multiple analog and digital inputs – including a mini-jack input on the front panel that allows you to quickly plug in your iPod or other portable sound system.

Big under-grille display. Our new display is cleverly hidden beneath the speaker grille – and disappears when you're not using it.
